

BOY SCOUTS OF AMERICA®

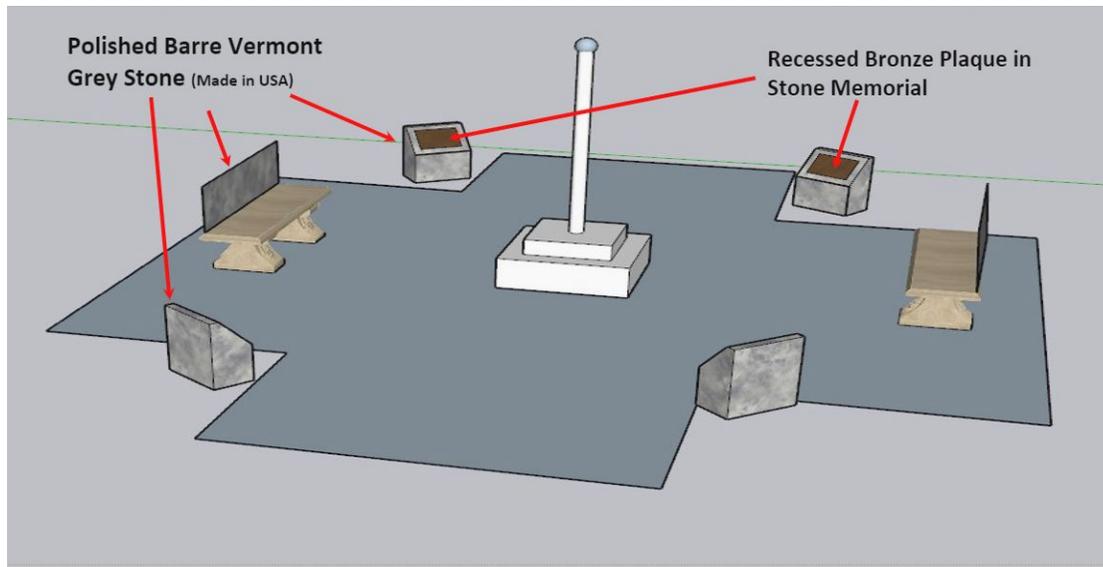

Troop 34 Franklin Lakes, NJ.

Date: 07/13/2020

My Name is Michael Perez, and I am a life scout from Troop 34 in Franklin Lakes, NJ. I am currently planning my Eagle Scout Project. This project is needed because it will allow the town's residents and visitors to memorialize 13 Veterans/ Residents of Franklin Lakes that were active in military service that perished during Wars. My Eagle Service Project will enhance the new town park, Veterans Park, recently renovated from a commuter parking lot. It will also give more curb appeal to the area, and all the residents of Franklin Lakes will have access to it and reflect at the memorial. I am giving back to the community and honoring the town's veterans for their service and their ultimate sacrifice.

My project will consist of installing (4) memorials made of polished Vermont Barre Grey Stone (Made in USA); Construction of (4) concrete foundation slabs; (2) reflection benches of polished Vermont Barre Grey Stone Made in USA); (4) Bronze plaques blind mounted on the memorials with "Presidential Quotes" and names of Veterans, which I have researched. I will plant (218) flowers and shrubs, in the area of the new Veterans Park.

Attached is a 3D model of how the project will look like:
