

REC & PARKS

The Franklin Lakes Recreation and Parks Department, is committed to providing our residents, both the young and the young-at-heart, with programs and facilities that foster a sense of community, sportsmanship, and well-being.

Dina Robinson is the Community Director responsible for recreation sports, wellness programming, park development and all events held by the town.

Recreation activities are developed to be safe, fun, and healthy for all children. The Recreation department promotes the value and importance of sports and physical activities in the emotional, physical, social, and mental developments of our youth. Participation in sports and activities helps to develop important character traits and lifelong values. If the adults involved have proper training and information, the lives of our youth can be positively impacted by participation in sports and physical activities.

MAYORS WELLNESS CAMPAIGN

The Mayors Wellness Campaign coordinates programs throughout the year that are designed to promote healthy activities and well-being in the Franklin Lakes community. The goal of this campaign is to increase opportunities for residents of all age groups, from youth to seniors, to participate in physical activity with a long-term goal of improving health.
