

EV Charging Stations - As of December 2024

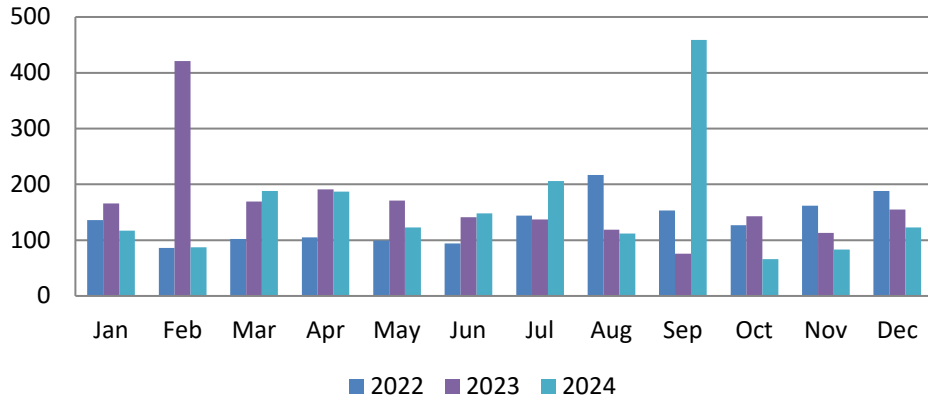

Unique Drivers : The unique drivers total shows how many different people have used your charging stations each month. A driver who charges many times in a given month will be counted only once that month.

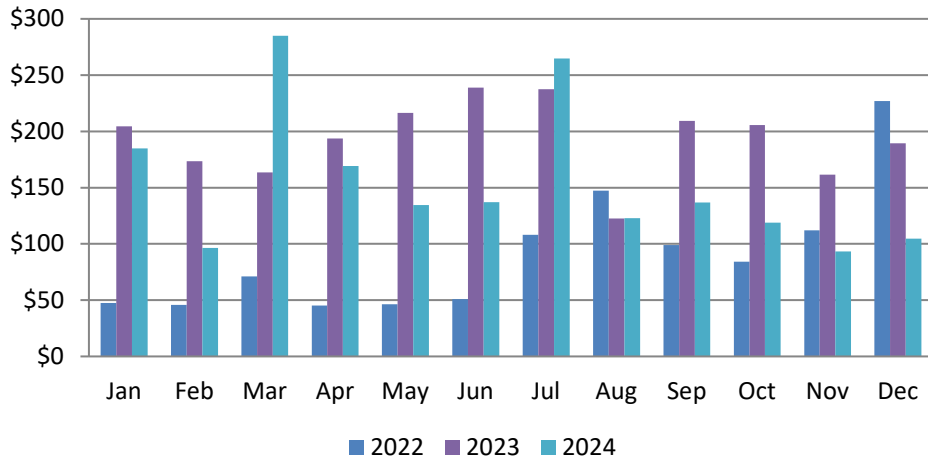

Charging Sessions: A charging session happens when an EV plugs in and receives energy for more than two minutes. A single driver can have multiple charging sessions.

Average Session Charging Length (minutes)

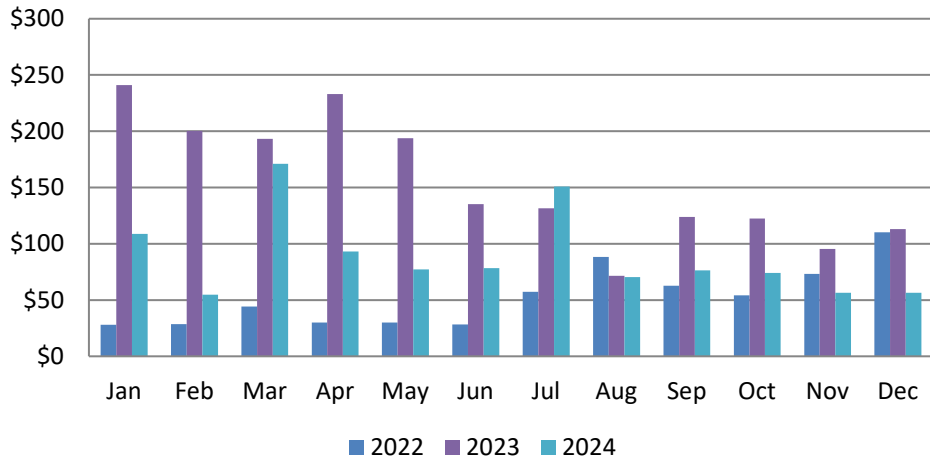

Average Session Length (minutes): The time the car is actively charging.

Session Fees (ChargePoint)

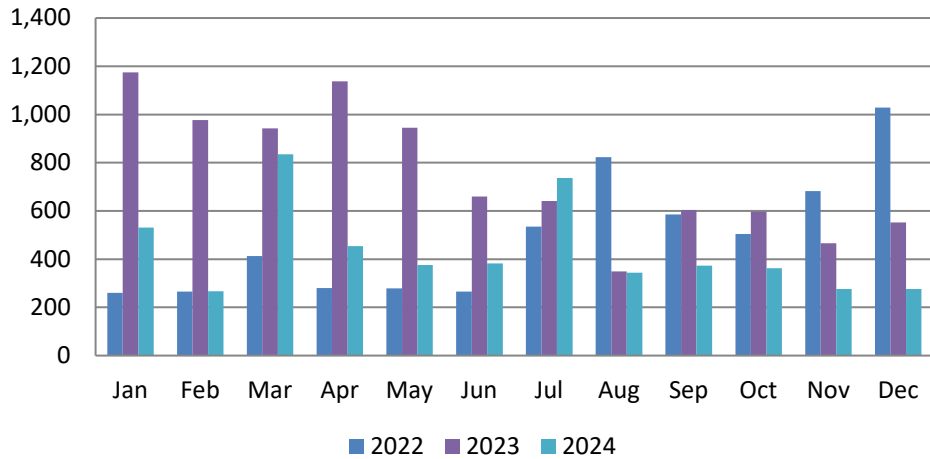

Session Fees: The amount ChargePoint collects for EV charging at the charging stations. Hourly charging rate is \$2.00 per hour connected to charging station.

Utility Costs

Utility Costs: The estimated cost of utilities for the charging station.

Energy Usage (kWh)

Energy Usage: The amount of energy that has been dispensed by the ChargePoint stations. Energy is measured in kilowatt hours (kWh).
